To maintain confidentiality, the Census Bureau applies statistical procedures that introduce some uncertainty into data for small geographic areas with small population groups. The census results in this table contain sampling error and nonsampling error. Data users who create their own estimates using data from American FactFinder tables should cite the Census Bureau as the source of the original data only. See also definitions of subject characteristics and geographic definitions.

This special census tabulation was supported by a partnership of the Baltimore City Department of Planning, the Baltimore City Department of Housing and Community Development, the Baltimore Memory Study at Johns Hopkins Bloomberg School of Public Health, the Baltimore Neighborhood Indicators Alliance (BNIA), the Center for Urban Environmental Research and Education at UMBC, The Institute for Urban Research, Morgan State University, the Johns Hopkins University Sheridan Libraries – Milton S. Eisenhower Library and the University of Maryland Geography Division.
